

THE MOST COMPLETE **WEIGH STATION BYPASS SERVICE**

Now available on
Garmin dēzl OTR devices

GARMIN[™]

The PrePass and Garmin Advantage

PrePass[®] extends the value for Garmin customers by providing integrated weigh station bypassing through Garmin dēzl OTR devices.

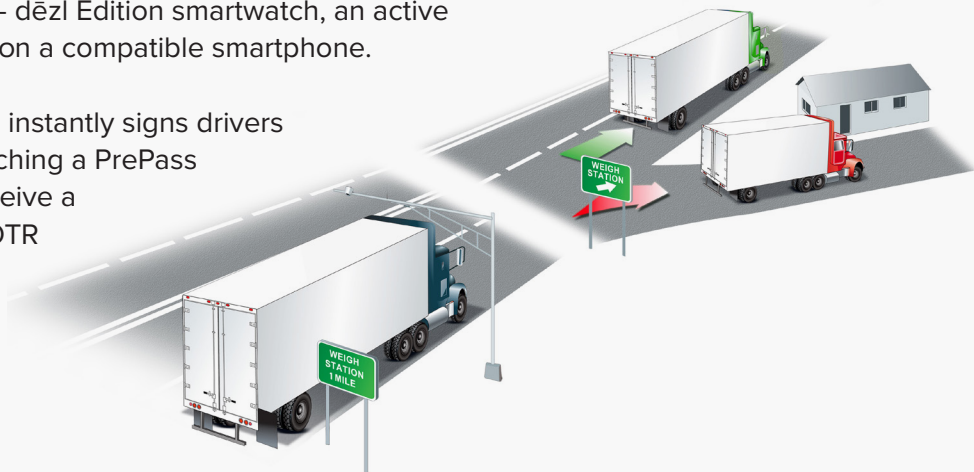

- Easy access and single sign-on through a Garmin dēzl OTR device or Instinct 2 - dēzl Edition smartwatch.
- Minimize freight delays and help drivers deliver on time and get home at night.
- Save a minimum of five minutes and \$8.68 in fuel and wear and tear each time your truck bypasses a weigh station.
- Stay safe and on-time with realtime driver safety and productivity ALERTS[™] across North America.
- Take control of your fleet's safety scores with the power of INFORM[™] Safety software, only offered by PrePass.
- Only bypass service that provides seamless and efficient integrated electronic toll payment services, including INFORM[™] Tolling software with toll data analytics showing the amount spent on toll payments, management of violations, prevention of fraud, and more.
- World-class customer support with a strong Trustpilot[®] rating.

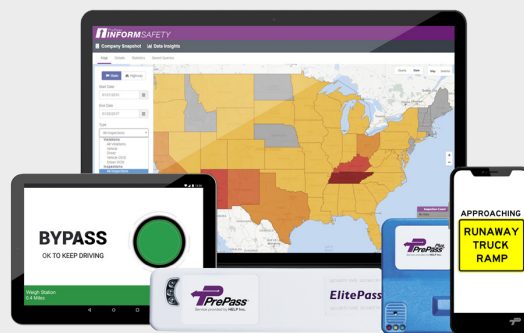

HOW IT WORKS

With PrePass®, truck drivers save time and improve efficiency with on-screen notifications of upcoming weigh stations and bypass decisions. Service requires a Garmin dēzl OTR device or Instinct 2 - dēzl Edition smartwatch, an active PrePass account, and the PrePass app on a compatible smartphone.

Logging into a Garmin dēzl OTR device instantly signs drivers into the PrePass service. When approaching a PrePass equipped inspection facility, drivers receive a notification through their Garmin dēzl OTR navigator alerting them to bypass the facility or pull in for inspection.

GET MORE WITH PREPASS

With over 700,000 subscribers, PrePass is the leading provider of weigh station bypass services in North America. Garmin customers can take advantage of the entire PrePass suite:

- **PrePass Weigh Station Bypass service** displays notifications on your Garmin dēzl OTR navigator with the option to use a PrePass transponder for additional coverage.
- **PrePass Nationwide Toll Payment services** provide one monthly, consolidated bill in addition to toll reconciliation and dispute resolution services.
- **INFORM Safety software** provides quick, clear insights into the factors affecting a fleet's safety scores with user-friendly dashboards.
- **INFORM Tolling software** provides toll payment analytics, fraud alerts, violation and dispute management, geographic drill-downs, and many other time saving features.
